Introduction - Why is identifying your Ideal Client so important?

By knowing who you are targeting you can ensure you are adding value and solving their problems in every social media post and every interaction you have!

This workbook helps you break down all the things you need to think about when identifying your ideal client.

Use information from past and current clients but also think about who you set up your business for, who was that person that inspired you to take action as they had a problem you knew you could solve!

Start by making notes about your ideal client, brain dump all your thoughts and ideas and then use the template to be really specific in creating a CV for your ideal client to bring them to life!
